EMERGENCY ASSISTANCE ALARMS

Folknoll emergency assistance alarm systems offer cost-effective, vandal resistant, **BS 8300-2** and **DOCUMENT M** compatible solutions built from standard and bespoke units. Our alarms can be combined with disabled refuge EVCS and other systems. Ideal for **SHOPS, OFFICES, HOTELS** and other **PUBLIC SPACES**.

ALARM BEACONS

Beacons, sounders and combined beacon sounders are usually mounted over the entrance of an alarm zone to attract attention and indicate the source of an alarm. Depending on the layout of the site, additional beacons/sounders and/or remote indicators may be required to help ensure staff are aware of alarm activations.

DT7520.23: BEACON, STAINLESS

This unit is fitted with a large, bright, red, LED beacon which illuminates to indicate the source of an activated alarm. The behaviour of the beacon will depend on the alarm reset/controller used. The LED is dome shaped and can be seen from the side, ideal for corridors.

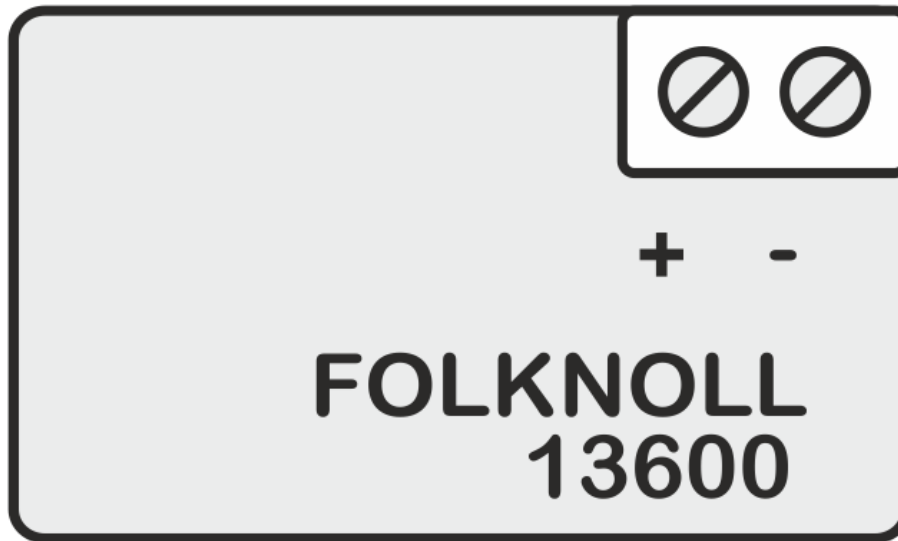

The faceplate is made from brushed finish stainless steel and annotated in red with the words **ASSISTANCE REQUIRED**. Other finishes and alternative annotation are available on request.

This unit is suitable for mounting in a standard UK, 35mm, single gang back box. Anti-tamper fixings available on request.
