

### WHITE ALARM CALL POINT WITH ANTI-TAMPER SWITCH

Mild steel construction

Suitable for mounting in  
a standard UK, 35mm, single gang back box

## EMERGENCY ASSISTANCE ALARMS

Folknoll emergency assistance alarm systems offer cost-effective, vandal resistant, **BS 8300-2** and **DOCUMENT M** compatible solutions built from standard and bespoke units. Our alarms can be combined with disabled refuge EVCS and other systems. Ideal for **SHOPS, OFFICES, HOTELS** and other **PUBLIC SPACES**.

## CALL POINTS

Call points, pull cords and alarm strips are used to call for assistance in emergency. These units are mounted in strategic locations in accordance with current standards, enabling distressed persons to activate alarms. Depending on the system configuration, beacons, sounders and remote monitoring units will be used to alert staff and others to respond to incidents.

## DT7520.25: CALL POINT, WHITE

The DT7520.25 white steel call point is fitted with a call button and internal anti-tamper switch. The faceplate is painted white and annotated in red with the words **EMERGENCY CALL**. Alternative finishes and annotation are available on request.

## CALL BUTTON

The unit is usually fitted with a vandal resistant call button. Keyed reset switches to prevent unauthorised resets are available on request.

## ACTIVATION DELAY

To reduce the risk of accidental activation the unit is has an activation delay. The call button must be pressed and held for a minimum of 0.25 seconds before the alarm is raised.

## ANTI-TAMPER SWITCH

This unit is fitted with an internal anti-tamper switch to trigger an alarm if the front plate is removed.

## MOUNTING

This unit is designed for mounting in a in a standard UK, 35mm, flush single gang back box.
