VANDAL RESISTANT RESET POINT

Large, illuminated push button

Can be 'daisy-chained' for multiple reset points

Illumination can be wired to indicate alarm state

Tough, stainless steel, construction

Mounts in a standard UK, 35mm, single gang, back box, anti-tamper fixings available

Compatible with Folknoll emergency assistance alarms

DESIGNED FOR USE IN PUBLIC AREAS

EMERGENCY ASSISTANCE ALARMS

Folknoll emergency assistance alarm systems offer cost-effective, vandal resistant, **BS 8300-2** and **DOCUMENT M** compatible solutions built from standard and bespoke units. Our alarms can be combined with disabled refuge EVCS and other systems. Ideal for **SHOPS, OFFICES, HOTELS** and other **PUBLIC SPACES**.

EMERGENCY ASSISTANCE RESET POINTS

Reset points reset/cancel the local alarm. **BS 8300-2** compliant emergency assistance alarms cannot be rest remotely. To comply these standards - and to try and ensure alarm responders visit the location in response to an alarm - one or more reset points are usually installed inside each alarm zone.

DT7540.00N ALARM RESET BUTTON

A vandal resistant, illuminated reset button for Folknoll alarm systems. These units can be linked together to offer multiple reset points and be used as a reset button for an alarm controller or an additional reset point for an enhanced reset.

ACTIVATION DELAY

When used in conjunction with Folknoll emergency assistance alarms, this button must be held for a minimum of 0.25 seconds before it will operate. Reducing the risk of accidental operation.

BUTTON ILLUMINATION

The button illumination is usually wired to mimic the action of the over-door beacon, giving the user positive visual alarm state indication within the alarm zone. Other configurations available on request.

FACEPLATE

The standard faceplate is made from brushed finish stainless steel with bold back, silk screened, English legends. Other finishes and alternative annotation are available on request.
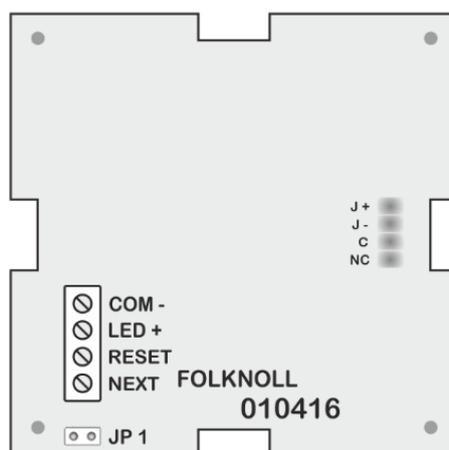

MOUNTING

The unit is designed for mounting in a standard >35mm, single gang, UK back box. Anti-tamper fixings are available on request.
