

GREEN COMBINED BEACON SOUNDER

FOR GENERAL ALARM SYSTEMS

FEATURES

- SUPERFLUX LED beacon, can be seen from side (ideal for corridors etc.)
- High audio level sounder for noisy environments 65 / 105 dB
- Mechanical sound transducer with aluminium membrane, protected against water
- Surface mounting
- 12/24 V DCAC

DESCRIPTION

The Folknoll general alarm range is used to construct a wide range of MoJ alarm systems including general/officer/staff alarms and affray alarms.

The GA042 is a combined beacon sounder for the Folknoll general alarm system.

The unit is mounted in offices, control rooms, corridors and other suitable locations to alert staff on alarm activation.

Multiple GA042s can be activated on a single alarm.

Larger sites alarms can have zoned alarms. Each GA042 can be associated with single or multiple zones to concentrate resources and improve alarm response effectiveness.

Other colours, beacons, sounders and indicator panels available.
