BUTTON PRESSES

RECOGNISES UP TO 1000 DIFFERENT  
RADIO PENDANTS

CODE HOPPING HIGH SECURITY

INTERNATIONAL APPROVALS

## FOR PRESTIGE SYSTEMS

### FOLKNOLL PRESTIGE WALDEN CALL SYSTEMS

Our flexible Prestige warden call / nurse call range combines panic alarms, assistance alarms, door exit alarms, external alarms, intercom, door entry control with local and remote monitoring. Providing peace of mind to residents of care homes, warden controlled homes, nursing homes and other similar establishments.

### PS7801 CENTRAL RADIO RECEIVER

The PS7801 Prestige Central Radio Receiver detects panic button presses from PS7810 Radio Neck Pendant Transmitters.

The receiver is capable of recognising up to 1000 different transmitters.

If a pendant panic button press is detected the warden call system alerts staff by calling the wardens hand unit or DECT handset and can also activate sounders and/or beacons depending on site configuration.

Residents and staff can activate an alarm anywhere within range of the receiver. No need to find a speech unit, pull cord, call point etc.

Works in conjunction with PS7810 neck pendant panic buttons.

Requires aerial Folknoll PS7804.

## PART NUMBERS

PS7801 Prestige Warden Call Central Radio Receiver
