Description

The Videcom VC-7000 series is a range of easy to install, easy to configure and easy to operate vandal resistant audio/video equipment, designed to enable you and your clients to install reliable vandal resistant intercom systems with integral video.

As with all Folknoll products the Videcom system has been designed for easy installation, simple configuration, straightforward operation, excellent testing facilities, low maintenance and high reliability

Options

- Traditional robust master stations with separate video monitors
- Networked PC master stations with integral video
- Wide range of indoor / outdoor / disabled refuge / video outstations
- Custom units and special facilities available on request

Features

- Proven reliable design
- Simple operation
- Can be integrated with Folknoll's door entry and interlocking door systems
- Can be integrated with Folknoll's security management systems
- Can be used with composite video external cameras

Specifications

- Maximum of 128 outstations
- No limit on the number of master stations
- Two simultaneous audio calls
- Four simultaneous live video streams

Designed For Life

As with all Folknoll products the Videcom system has been designed for easy installation, simple configuration, straightforward operation, excellent testing facilities, low maintenance and high reliability.

Custom Units

Folknoll is a customer requirement led company. If you need special software features, custom made units or larger systems, then please contact Folknoll to discuss your requirements.
