**Yellow painted, die-cast aluminium construction**

**Forms weather-resistant enclosure  
when mounted on a matching Folknoll back box**

**Anti-tamper fixings available**

**Designed for external use**

## VIDECOM INTERCOM SYSTEMS

The VC-7000 Videcom series is a range of easy to install, easy to configure and easy to operate vandal resistant audio/video equipment, designed to enable you and your clients to install reliable vandal resistant intercom systems with optional video.

## VIDECOM OUTSTATIONS

Videcom outstations are installed in strategic areas to enable users to contact operators for assistance.

## VC 7000-031: EXTERNAL VIDEO OUTSTATION

The VC 7000-031 is our standard, external, audio-visual, outstation. It is housed in a bright yellow, highly visible, IP65, surface mount enclosure, designed for external use. The unit is fitted with a large call button and a separate call progress LED with an internal microphone and speaker. The audio output is adjustable up to 80dB for locations with high background noise.

## FACEPLATE

The faceplate is formed from yellow painted, die-cast, aluminium which forms a hard wearing, IP65, surface mount enclosure when fitted to our custom back box. Our custom back box is made from black painted aluminium and is usually supplied with the outstation.
