## **VIDECOM INTERCOM SYSTEMS**

The VC-7000 Videcom series is a range of easy to install, easy to configure and easy to operate vandal resistant audio/video equipment, designed to enable you and your clients to install reliable vandal resistant intercom systems with optional video.

## **VIDECOM OUTSTATIONS**

Videcom outstations are installed in strategic areas to enable users to contact operators for assistance.

### **VC 7000-041: EXTERNAL DAY NIGHT OUTSTATION**

The VC 7000-041 is our standard, weather-resistant, audio-visual, day night outstation. It is housed in an IP65, surface mount enclosure with highly visible, bright yellow faceplate and black painted base. This unit has a large black, call button and separate call progress LED. The internal microphone and speaker levels are adjustable, offering a maximum output of 80dB for locations with high background noise.

## **ENCLOSURE**

The faceplate is formed from yellow painted, die-cast, aluminium which forms a hard wearing, IP65, surface mount enclosure when fitted to our custom back box. Our custom back box is made from black painted aluminium and is usually supplied with the outstation.
